

Client Spotlight: *Greystone Manufacturing, LLC*

At Perry Johnson Registrars, Inc. (PJR), we take pride in working with companies that demonstrate commitment to quality, innovation, and sustainability. One such company is Greystone Manufacturing, LLC, a leader in producing **100% recycled plastic pallets** for a diverse range of industries, including food and beverage, automotive, chemical, pharmaceutical, and consumer products.

Greystone Manufacturing sets itself apart by utilizing proprietary blends of recycled plastic resins and advanced manufacturing technology to produce high-quality, cost-effective, and environmentally friendly pallets. Their product line includes Beverage, Drum, Nestable, and Rackable pallets, available in various sizes and tailored to meet industry-specific requirements. Additionally, their specialized blends—Ambient, Fire, and Freezer—ensure that customers receive durable, high-performance pallets suited for different storage and transport conditions.

ISO 9001:2015 certification through PJR has provided Greystone Manufacturing with a thorough assessment of its Quality Management System, enabling the company to refine its processes, enhance efficiency, and maintain compliance with regulatory and customer expectations. Through this structured evaluation, Greystone has leveraged risk-based decision making to continuously improve operations, ensuring they deliver superior products to their clients.

The benefits of ISO certification extend beyond compliance for Greystone Manufacturing. Internally, it reinforces their dedication to maintaining high-quality standards and streamlining processes. Externally, it enhances their reputation in the industry, giving customers confidence in their commitment to excellence. Achieving and maintaining certification reflects the hard work and dedication of the entire Greystone team and aligns with their mission to provide innovative and sustainable solutions.

Greystone Manufacturing has found great value in its collaboration with PJR. The company has had a positive experience working with both the Auditor and the PJR team, reinforcing the importance of strong partnerships in achieving quality and compliance goals.

With four locations and a rapidly growing presence in the industry, Greystone Manufacturing continues to focus on expansion and continuous improvement. Their future plans include developing innovative solutions to meet evolving customer needs while upholding their commitment to environmental sustainability. By recycling as much plastic as possible, Greystone actively supports a green initiative to protect the planet for future generations.

At the core of Greystone Manufacturing's success is a philosophy centered around sustainability, innovation, and customer satisfaction. These core values guide their business operations and set them apart in the industry:

- **Integrity** – Ensuring reliability and consistency in all operations.
- **Accountability** – Taking responsibility for actions and outcomes.
- **Passion** – Demonstrating dedication and enthusiasm in their work.
- **Eco-Consciousness** – Prioritizing environmental sustainability in all processes.
- **Teamwork** – Collaborating effectively to achieve common goals.
- **Innovation** – Striving for continuous improvement in products and processes.
- **Quality** – Maintaining the highest standards in their product offerings.

PJR is proud to spotlight Greystone Manufacturing for its unwavering commitment to quality, sustainability, and customer satisfaction. We look forward to supporting their journey as they continue to lead the way in innovative, eco-friendly manufacturing!
