## VPA Program

PJR is pleased to announce a new program debuting in 2020 – Virtual Pre-Assessments. Pre-assessments can be a vital tool for first-time certification clients working toward any standard. Like a sort of “dress rehearsal,” pre-assessment can help familiarize your organization with audit team expectations and how to best interface with an auditor. Additionally, the pre-assessment can identify strengths and weaknesses in your systems without the added pressure of a formal response. Adding to these advantages, the new *virtual* pre-assessment program from PJR adds the flexibility and savings of no travel costs; an auditor can video or teleconference with your team to conduct meetings and audit proceedings, with all the same helpful input.

To learn more about this new program from PJR, visit our website at [www.pjr.com](http://www.pjr.com) or call (248) 358-3388. ♦

## ISO 37001 Accreditation

After debuting our ISO 37001 Anti-Bribery program successfully in 2019, PJR is happy to announce full accreditation from ANAB to certify clients to the standard. As the first American certification body to receive this recognition, PJR is ready to lead the way for the American market in the Anti-Bribery Management System certification market. ♦

## EHS Update: R2

The second R2v3 draft has been released, with changes based upon feedback received after the initial draft. After consideration regarding the comments received, the TAC also revised the R2 Equipment Categorization (REC) document.

Among changes to the R2v3 draft were clarification of the “scope” definition, removal of redundancies in the EHSMS requirements, Sorting and Categorization process simplification, greater flexibility in sanitization verification methodology, and more.

For further updates regarding the status of the newest R2 draft, stay tuned to PJR and SERI. ♦

# *PJR's Policy On Conducting Audits In Geographical Areas Affected By The Corona Virus*

## *A*ttention PJR Clients –

After careful review of guidance issued by our Accreditation Bodies as well as our own internal determinations, PJR will be handling audits in areas potentially affected by the current coronavirus (COVID-19) situation on a case-by-case basis.

To mitigate risk to our auditors as well as our clients, we are encouraging good hygiene practices, self-quarantine in case of exposure, as well as avoidance of geographical areas considered high-risk. The health and safety of all is of key concern to us at PJR, and ask that any clients with concerns or questions regarding upcoming audits or specific policy please contact their dedicated scheduler or project manager.

We thank everyone in advance for their cooperation in light of this constantly-evolving situation. ♦

– PJR Management

## *Introducing CMMC Pre-Assessments*

Created by the US Department of Defense (DoD), Cybersecurity Maturity Model Certification (CMMC) is a framework designed to incorporate multiple cybersecurity control standards into one. CMMC ensures that proper levels of controls and processes are in place to help DoD contractors meet requirements published in the DoD's 2015 Defense Acquisition Federal Regulation Supplement (DFARS).

While information regarding CMMC certification requirements is limited, PJR is ready to help you prepare for any of the five levels of CMMC certification with a pre-assessment; this will determine your organization's readiness level and will identify gaps in the system and what steps will be necessary to close them.

To learn more about CMMC certification and its levels, contact PJR at (248) 358-3388. ♦

## ***PJR Sales Awards***

**Patrick Lowry**  
*Customer Whisperer*

In Recognition of Hard Work & Dedication in Providing the Highest Level of Customer Service.

## ***Cyberincidents – Protect Yourself & Your Assets!***

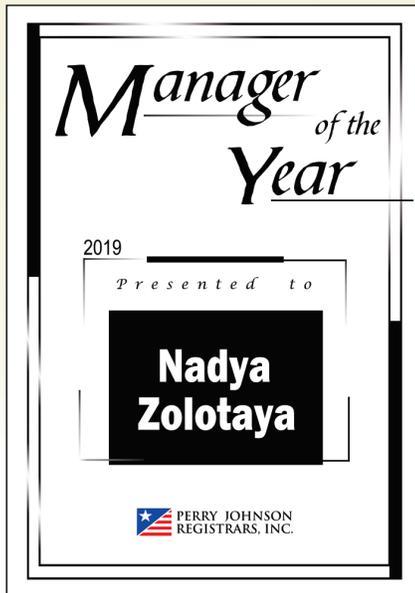

### ***Did you know?***

- The cybercrime economy has grown to over \$1.5 trillion in profits each year
- On average it takes nearly 50 days for a discovered breach to be reported
- Security breaches have increased by 67% globally in the last 5 years
- A new ransomware attack occurs every 14 seconds; small businesses are the target of 43% of cyber attacks
- In 81% of cases, malware infections of corporate infrastructure began as a phishing message sent to an employee

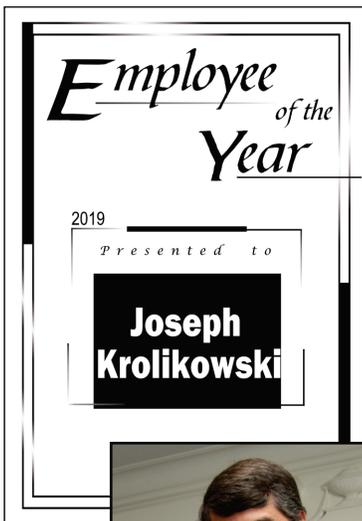

Cyber threats and cybercrime are nothing to write off – learn how to best protect your organization through implementing an Information Security Management System (ISMS). PJR offers a number of certifications to cover these areas, such as ISO 27001, and we're happy to help identify which standard would work best for you. Contact us at (248) 358-3388 to learn more. ♦

Specialist

## RIOS Logo Revision

**Attention PJR RIOS Clients:**

The RIOS logo has been revised, however communication of the change may have been inadequate. Please ensure that you are utilizing the correct version of the logo. A revision of PRO-3 is forthcoming, and PJR is hard at work updating RIOS certificates to reflect the change. If you have any questions about the correctness of your logo usage, please contact your project manager. ♦

## PJR Annual Training

PJR's annual auditor training sessions for 2019 took place the week of December 9-14<sup>th</sup>. This year's training includes RIOS and R2 Lead Auditor training courses as well as an R2v3 Upgrade training course for 20 existing PJR R2 Lead Auditors. Tina Garner of ANAB also hosted a special day-long session for our sales team and quoting department.

EHS was well-covered by PJR's EHS Program Manager Stacey DeSantis, who conducted a General EHS Auditor Training session that covered ISO 45001 Lessons Learned, Common EC Rejections, EA Codes and Risk, R2v3 Setup, and more. An aerospace session led by Jerry Antonucci and Amanda Brown covered a range of topics from ANAB Office and Witnessed Audit Findings to NCR Review Activity for almost 30 attendees. Automotive auditors were treated to a session led by Shannon Craddock, Shannon Reed, and Joe Krolkowski to discuss 2020 Initiatives, Veto Power Feedback, and Recent SI/FAQs.

The final day of the annual training was occupied by a general session for all auditors, covering content from IAF MD-1 Transfers and NCR Form Changes and Virtual Audits to a Root Cause and Corrective Action Workshop and Auditing Tips & Hacks.

Thank you to all of our auditors and participants who were able to join us for another successful event, and best of luck in 2020! ♦

## Career Opportunities

Partnering with Perry Johnson Registrars, Inc. can afford you the opportunity for providing local and nationwide Auditing services. If you are looking for an exciting career in Quality auditing this is a great start into the industry!
